Now showing in 3D.

Enjoy your own private screening in spectacular 3D on the 17.3" diagonal HP 3D Ultra BrightView display[8] with 1080p resolution.[35] HP 3D Active Shutter Glasses synchronize wirelessly with the 3D content on screen by switching on and off, left and right, up to 120 times per second to deliver thrilling, multi-dimensional viewing. And because this 3D technology doesn't employ color shifting or other blurring effects, everything is crisp and clear whether you're watching 3D or not. Prepare to be blown away by exceptional color reproduction and razor-sharp Blu-ray[16c] playback.

Blockbuster performance.

The HP ENVY17 3D is as serious about productivity as it is about movies and games. Whether you're crunching numbers, editing video and images, or battling alien invaders, you can keep moving at full speed with the latest Intel® processors and ATI Mobility Radeon HD 5850 graphics with 1GB of GDDR5 VRAM. Integrated native support for ATI Eyefinity multi-display technology expands your desktop horizons by letting you connect up to three external displays to immerse yourself in games and optimize your creative efficiency. Additional refinements include a Windows® 7 experience that eliminates pop-ups due to trialware.[1] Plus, you can keep your desktop notebook clean and clutter-free with exclusive HP Fences software.

- Get maximum speed for demanding applications with the Intel® Core™ i7[3] processor and Intel® Turbo Boost Technology[3b] . By accelerating performance to match your workload, it unleashes the ultimate digital media creation experience with fast video editing and encoding, plus incredible performance for image rendering, photo retouching and editing.
- Get up to 3 hours and 45 minutes of life with the 9-cell 93WHr Li-Ion battery and up to 2 hours and 30 minutes with 6-cell 62WHr [28]. Both are included to maximize your run time.
- Recharge your battery, whether your notebook is on or off, with an HP Notebook 120W Smart Power Adapter.
- To ensure you have everything right where you need it, enjoy 750GB of storage capacity and the peace of mind provided by the HP ProtectSmart hard drive locking mechanism. [7]

The art of state-of-the-art.

The remarkably thin, laser-etched chassis in brushed aluminum will turn heads. And on the inside, subtle touches make all the difference. The HP ENVY island-style backlit keyboard responds to your fingertips with individual reflexes. Action keys let you adjust sound, brightness, and other settings with a single touch. The generous-sized, multi-touch, gesture-enabled HP Clickpad helps you navigate quickly and intuitively. And because a work of art deserves undivided attention, as an HP ENVY owner, you'll enjoy an ENVY-only support line with dedicated ENVY staff and resources.

Hear all the music.

To enhance your entertainment experience, the HP ENVY17 3D features Beats Audio™ to optimize audio quality through external speakers and headphones and the HP Triple Bass Reflex Subwoofer to pump up the PC speaker volume. Experience your music the way the artist intended with the world-class Beats audio™ system, offering crystal-clear sound with deep controlled bass that can be accessed with a single keystroke. Its powerful, HP-developed audio profile is tuned specifically for ENVY's exceptional audio components and tested by Interscope musical artists. Available exclusively from HP.
